Also announced today, for the seventh straight year, Blue Cross' administrative spending percentage was below state and federal requirements. Under state and federal law, health plans are required to spend a significant portion of each premium dollar on the medical care of their members. Health plans that don't meet these benchmarks are required to issue rebates to their customers. Massachusetts' standards for individuals and small businesses are the highest in the nation. Blue Cross consistently exceeds state and federal standards by spending more than 90 percent of every premium dollar on its members' medical care.

Blue Cross is the leading private health plan in Massachusetts with 2.8 million members.
